LEHLE VOLUME BRACKET

INSTALLATION GUIDE for all LEHLE VOLUME pedals

- 1 - Allen screw plus washer (2 pcs)
- 2 - Bracket A
- 3 - Allen screw plus washer (2 pcs)
- 4 - Bracket B

- 5 - Locking nut plus washer
- 6 - Allen screw plus washer (2 pcs)
- 7 - Mounting plate
- 8 - Bracket C

- Loosen Allen screws (1) and (3) so you can move Bracket A and C. Do not remove screws, just turn them counterclockwise a half-turn so they stay attached to the brackets.
- Place the Volume Bracket onto your pedal steel bar, make sure the mounting plate (7) touches the floor and use the included Allen key to tighten the screws.
- Connect the power supply and cables to your Lehle Mono Volume or Lehle Stereo Volume.

- Remove Allen screws (6). Place the pedal onto the Mounting plate (7) so the holes of the pedal match to the holes on the plate.
- Place the Allen screws plus washer (6) through the mounting holes of the Volume pedal and use the Allen key to tighten them.
- By loosening and tightening the Locking nut (5) you can adjust the angle of your pedal.

LEHLE VOLUME BRACKET

INSTALLATION GUIDE for LEHLE VOLUME 90

1 - Allen screw plus washer (2 pcs)

2 - Bracket A

3 - Allen screw plus washer (2 pcs)

4 - Allen screw plus washer (2 pcs)

5 - Bracket B

6 - Bracket C

- Loosen Allen screws (1) and (3) so you can move Bracket A and C. Do not remove screws, just turn them counterclockwise a half-turn so they stay attached to the brackets.
- Place the Volume Bracket onto your pedal steel bar, make sure that Bracket B (6) touches the floor and use the included Allen key to tighten the screws.
- Remove Allen screws (4) and place your Mono

Volume 90 onto Bracket B (5) so the holes of the pedal match to 2 of the 4 holes on the Bracket.

- Place Allen screws (4) through the mounting holes of the Mono Volume 90 and use the Allen key to tighten them.
- By choosing 2 different holes on Bracket B you can set the pedal at different angles and distances in relation to the bar.

LEHLE VOLUME BRACKET
